

CLAIMS

I claim:

1. An improved method for masking stains on a reusable baby diaper or baby burp cloth comprising the steps of:
providing a fabric material which is white or otherwise not color treated;
providing at least one predetermined pattern or design for imprinting the material;
color treating the material fibers with at least one color fast dye treatment consistent with the predetermined pattern or design;
repeating steps of providing a pattern or design and color treating the pattern or design until the material is completely colored consistent with the desired pattern or design.
2. The method of claim 1, wherein the fabric material further comprises cotton having at least three plies.
3. The method of claim 2, wherein the fabric material is suitable for and further comprises a baby diaper.
4. The method of claim 3, wherein the predetermined pattern is thematic.
5. The method of claim 2, wherein the fabric material is suitable for and further comprises a baby burp cloth.
6. The method of claim 5, wherein the predetermined pattern is thematic.
7. The method of claim 1, wherein the fabric material further

comprises an absorbent, white, three dimensional fibrous web.

8. The method of claim 7, wherein the fabric material is suitable for and further comprises a baby diaper.
9. The method of claim 8, wherein the predetermined pattern is thematic.
10. The method of claim 7, wherein the fabric material is suitable for and further comprises a baby burp cloth.
11. The method of claim 10, wherein the predetermined pattern is thematic.
12. An improved baby diaper comprising:
an absorbent, white, three dimensional fibrous web; and
at least one color fast dye applied to the fibrous web in at least one predetermined design or pattern wherein the applied color fast dye and pattern or design tend to mask or otherwise diminish the effect of stains on the diaper.
13. The diaper of claim 12, wherein the predetermined pattern is thematic.
14. An improved baby burp cloth comprising:
an absorbent, white, three dimensional fibrous web; and
at least one color fast dye applied to the fibrous web in at least one predetermined design or pattern, wherein the applied color fast dye and pattern or design tend to mask or otherwise diminish the effect of stains on the burp cloth.

15. The burp cloth of claim 14, wherein the predetermined pattern is thematic.
16. An improved baby diaper comprising:
a white cotton material having at least three plies; and
at least one color fast dye applied to the cotton material
fibers in at least one predetermined design or pattern
wherein the applied color fast dye and pattern or
design tend to mask or otherwise diminish the effect of
stains on the diaper.
17. The diaper of claim 16, wherein the predetermined pattern is thematic.
18. An improved baby diaper comprising:
a white cotton material having at least three plies; and
at least one color fast dye applied to the cotton material
fibers in at least one predetermined design or pattern,
wherein the applied color fast dye and pattern or
design tend to mask or otherwise diminish the effect of
stains on the diaper.
19. The diaper of claim 18, wherein the predetermined pattern is thematic.
